3. Mr. Starov has been named as a co-inventor of at least one other patent application for the Assignee since his termination and has refused to sign or could not be reached to sign the declaration and assignment associated with that application.

4. In November of 2001, a copy of the above referenced Application, the Declaration, and the Assignment were delivered, via Federal Express, to the last known address of Mr. Starov as provided by his former employee. (See Exhibit A-1)

5. In December of 2001, I attempted to ascertain a home phone number for Mr. Starov at his last known address. Mr. Starov's phone number is unlisted and his former employee did not have his phone number.

6. In January of 2002, a copy of the Declaration and the Assignment was sent via certified mail to Mr. Starov's last known address with a self-stamped return envelope. The return receipt was signed (See Exhibit A-2). The Declaration and the Assignment were not returned to us.

7. In February of 2002, I obtained the address and phone number of Mr. Starov's last known employer, which follows below:

Sizary Inc.  
170 Knowles Dr., Suite 201  
Los Gatos, CA 95032 USA  
Phone 408-364-3810  
FAX 408-364-3811

8. On February 6, 2002, I called Mr. Starov at his last known employer and left a voicemail for him to call me back or to return the signed documents to us. Mr. Starov did not return the phone call and the documents were not sent back.

9. The two month deadline to file a response to missing parts is set to expire on March 7, 2002, and therefore, the Assignee has instructed me to file this Petition under Rule 47(a) before the two month deadline, if Mr. Starov has not complied with our request for his signature on a declaration and refuses to acknowledge any attempts to communicate with

him. Therefore, Mr. Starov can not be reached in order to obtain his signature. Accordingly, this Petition is being filed along with the Missing Parts documentation.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.
